## About This Game

'Death Coming' is a non-linear puzzle game where you take on the role of the Reaper. Your sole objective? Cause deaths and harvest souls while abiding by the Free Will Clause.

## Background Story

You Died.

Pure and simple, but death was not the end. You have become an agent of Death: a Reaper. You have the powers of Death, but there are rules in this supernatural afterlife.

---

The Reaper ends lives, but it cannot control humans directly due to the Free Will Clause. As the Reaper, you must plan and execute your killings by using the environment to your advantage. In the meantime, be wary of Minions of Light, who will try to save humans from their grim fate!

## **Key Features**

### **● Isometric ‘God’ Perspective**

View your hunting grounds from a top-down perspective. Follow the lives of your targets and those out to stop you.

### **● Non-linear Design**

Start with any character you want, and solve the puzzles in any order you like within the limits of the Death Traps and weather conditions.

### **● Observe, Plan, Execute**

Observe the victims to find out their behavior and idiosyncracies. Trigger death traps at the right moment to kill efficiently. The better you know their routines, the better you can prepare your death traps.

### **● Reactive AI**

Victims will hang around spots they like and will change their actions and behavior when something happens to them, such as seeing someone die.

### **● A Morbid Sense of Humor**

From suburbia to missile factories, there’s always a wacky way to wreak havoc. Don’t be afraid to laugh at someone’s demise. If you do what you love (in this case, harvesting souls), you’ll never have to work a day in your life!

Achievements

You freeze where you are, just rounding the corner across the street. About twenty meters away, two figures are backing a third into the wall of the burnt-out building, ignoring the police and fire barricades that are still blocking the sidewalk around the place. Two canines wearing gang colors have cornered a human female.

You recognize her scent now. It's the reporter from the fire, Kris Westbrook.

The moreau pair is closing on her, and they don't seem happy. The entire area around the front of the building is empty except for them and you, and no one seems to realize you're there yet.

- Kris is in trouble and needs help. I walk up and try to talk the canines out of anything rash.
- Kris is in trouble and needs help. I wade in and crack some canine skulls.
- What the hell is she doing back in my neighborhood? I better scare her off, because these canines aren't doing a very good job.

If you don't have this game, you are missing out on something special!

It is super fun, original, well polished, hilarious, cute, etc...

It also loads fast, has nice graphics and challenging gameplay.

Don't waste any time, buy it now!

You will not be dissapointed.

If all games were as well done as this, the world would be a better place!

...A little Gem!. Volume 2 is technically the third stand-alone You Don't Know Jack game, the second being YDKJ Sports.

Much like volume 1, the humor is the driving force behind the game along with the trivia. A few new features have been added to distinguish it from volume 1, such as the introduction of DisorDat and Celebrity Collect Calls, that keep the game fresh. Like the previous installment, this is a sound purchase for trivia masters, comedy lovers, and almost anyone else.. A quality game beat it in time shown and will probobly return to play it again at a later date.

All puzzles give stisfaction after you beat them and it was fun to figure them out.

I would say that the only downside is that there isnt more, so more levels would be apreciated.

other than that 9.9V9. PROS: Interesting story, you have the ability to shoot, short but sweet.

CONS: short but sweet, wish they would have included more enemy variety and orV bosses.

B+. This one was one of the first high-speed trains what I wanted back when I bought Train Simulator 2012, it is an extremely early version, misses a lot of functionality what the new versions contain, I just really wish it would be fixed so that all LZB, PZB and SIFA functions would be functional on this train, without these functions you can't really do much with the train other then just driving it in casual mode. I don't recommend buying it unless it is on sale though.

I rate this DLC 6 out of 10.

Protip, if you want 300km/h speed, set the two engines to single two vehicle consist and you will fly like some Airbus A380.

\u2610 Free. Pished me pants laughing and used that to upgrade my porridge cannon, the deadliest weapon in Scottish history besides mooning

**Soundtrack (music + voice acting): amazingly Scottish & funny**

**Storyline: hilariously crazy (first mission is to invade France because they refuse to build a haggis factory by the Eiffel tower..**

**Gameplay: classic and smooth point & click RTS mechanics packed with comedy**

**Graphics: good, well furnished 3D characters and environment, explicit and smooth animations, just right for my laptop.**

**Early access: as stated in their description, the only thing missing is the multiplayer mode they are planning to implement when they get enough backing from us.**

**So, get yourself well prepared for venturing forth into this satirical story of world domination :**

**1V Find a pair of tartan trousers and put them on with no underwear**

---

2V Cut off both leg parts up to the fly and make a hat and a shoulder plaid out of each

3V Well done! you are now wearing a kilt and a full Scottish outfit

4V Dye your hair with a can of IRN-BRU to add even more credibility

5V "Cruachan!!!" (that used to be my clan's battle cry)

10V10. i mean paying money for single runes is pointless, but i bough the game for 5 euros with all the dlcs so hey good bundle mate. Just like I remember - a classic side scroller. Today's gamers may hate the play style of games from this era (no save, check points, or automatic health regen) but I still find it extremely enjoyable.. I got this game for 99 cents as a curiosity, but was very dissapointed. I'd say the biggest problem I have with the game is that it is customized for slower computers so I can't play it on my computer. Every turn feels like I'm dragng my feet through a hurricane that's pushing me backward slowing my pace to a crawl. As far as the gameplay goes, overall its not really too bad, but it is just a mediocre rts game that may have had a lot of potential if it had better game mechanics. My recomendation is not to buy this game, If its 99 cents and your curious and have some money to waste check it out, as its not atrocious just sub par and plagued by that awful issue that the game seems to move as slow as humanly possible.
